

# Sensormatic AMS-1 140 Detection System

Controlling shoplifting and maintaining an aesthetically pleasing shopping environment is critical to the success of independent retail businesses. Tyco Retail Solutions' Essentials solution features the fundamental Electronic Article Surveillance (EAS) components necessary for the value conscious retailer addressing shoplifting, while preserving their bottom-line.

The Sensormatic AMS-1 140 Detection System, a solution within the Essentials suite, offers a modern design that blends seamlessly into a variety of retail formats, while providing a strong visual deterrent against theft.

The AMS-1 140 Detection System features our premier Ultra-Max technology and is fully compatible with our suite of Essentials products including: an array of tag and label options for protecting a wide selection of items from apparel to accessories and low-profile deactivators to enhance throughput at the front end.

*Preserving store aesthetics and maximizing customer flow, the Sensormatic AMS-1140 is the right detection system for the value conscious retailer in any retail setting.*

## Data Sheet » AMS-1 140 Detection System

### Key Features:

- Delivers the proven high performance Ultra·Max EAS technology with a sleek modern design.
- Advanced detection technology helps ensure performance in high noise environments.
- Self-contained power supply located in the base of the primary pedestal eliminates the need for an external controller.
- Uses less than 50W of energy per hour, resulting in lower energy costs and supporting environmental initiatives.
- Rigid ABS construction provides long term durability.

### Product Compatibility:

- Essentials solution suite
- Ultra·Max AM Labels
- Local Device Manager II

### Product Specifications:

- Height: 134.11cm (4.4ft)
- Width: 33.52cm (1.1ft)
- Thickness: 2.54cm (1in)
- Base Thickness: 8.38cm (3.3in)

### Additional Information:

For more information please contact your local sales representative or visit us on [www.sensormatic.com](http://www.sensormatic.com)

### Benefits

- Integrated audible alarm in the base of the primary pedestal provides notification of events.
- Superb shoplifting coverage of up to 1.5m (5ft) for unobstructed coverage of double door entrances.
- All electronics contained within the base of the primary pedestal, reducing install and maintenance costs.
- Standard “tags-too-close” feature provides easy management of store front.
- Service connection port in the base of the primary pedestal allows remote system service access, reducing in-store service costs.
